- 1993 Software development
- 2004 NEW BEGINNINGS

< 10 staff</p>

# Company Philosophy

Contribute to and learn from every interaction with a Client

- Treat every client as a long-term strategic partner
- Strive to continuously encapsulate knowledge and best practices into our systems, including all new development

# Company Philosophy (cont)

- All installation, training and support included in monthly fees, even free conversions. We consult, not just support – no extra costs (free)!
- Up and running effectively within one week and finalised within a month.
  - Cost, Sec and Tax training each in 3 4 hours.
- We build solutions around our customers' needs, through understanding their business and by delivering on technology that enhance and grow their business.
